

Retro-Fit Street™ A Green Tech Bulb

Easy to install using existing housing and sockets, and requires minimal rewiring.

Green Technology
Recyclable
Patent Pending
Powered by UL
Recognized Driver
and Components

Increases Safety with greater visibility - The LED's provide Bright Day Light White for ultimate security.

Reduce Energy Consumption - Each unit draws 30-90 watts TSD. Technology enables an energy savings up to 50% or more over traditional lighting packages.

Decreased Maintenance - The 10⁺ year life span of the fixtures reduces ongoing maintenance costs, often saving as much as the reduction in energy used.

Directional - Each unit has ability to direct light where you need it, eliminating external louvers to block stray light.

- **Replaces:** HID 75-320; HPS 70-150; 200-500 MH, MV
- **Color Temp:** Warm, Natural, Day White (3,000-6,000K)
- **2500-7500 Lumens, dimmable**
- **CRI: 80**
- **Socket:** Mogul 40 base
- **Life Hours:** 50,000+
- **Housing temperature:** Less than 95°F
- **Ambient Temperature:** 20-113°F
- **Working Voltage:** AC 120V, 220-240V, 277V
- **Warranty:** 5 years
